Software User Manual

Version 1.0

End User License Agreement (EULA)

**Do not use this product until the following license agreement is understood and accepted.
By using this product, or allowing anyone else to do so, you are accepting this agreement.**

Complete Toy Museum (henceforth 'the Product') is licensed to you as the end user. Please read this Agreement carefully. You cannot transfer ownership of these Sounds and Software they contain. You cannot re-sell or copy the Product.

LICENSE AND PROTECTION

1. License Grant
UVI grants to you, subject to the following terms and conditions, a non-exclusive, non-transferable right to use each authorized copy of the Product.

The product is the property of UVI and is licensed to you only for use as part of a musical performance, live or recorded. This license expressly forbids resale or other distribution of the sounds and software included in the Product or their derivatives, either as they exist on disc, reformatted for use in another digital sampler, or mixed, combined, filtered, resynthesized or otherwise edited, for use as sounds, multi-sounds, samples, multi-samples, wavetables, programs or patches in a sampler, microchip or any hardware or software sample playback device.

You cannot sell the Product content or give it away for use by others in their sampling or sample playback devices. In the event UVI terminates this agreement due to your breach, you agree to return the original and all other copies of the software and documentation to UVI.

UVI reserves all rights not expressly granted to herein.

2. Protection of Software
You agree to take all reasonable steps to protect the product and any accompanying documentation from unauthorized copying or use. You agree not to modify the product to circumvent any method or means adopted or implemented by UVI to protect against or discourage the unlicensed use of copying of the Product.

3. Ownership
As between you and UVI, ownership of, and title to, the enclosed digitally recorded sounds (including any copies) are held by UVI. Copies are provided to you only to enable you to exercise your rights under the license.

4. Term
This agreement is effective from the date you open this package, and will remain in full force until termination. This agreement will terminate if you break any of the terms or conditions of this agreement. Upon termination you agree to destroy and return to UVI all copies of this product and accompanying documentation.

5. Restrictions
Except as expressly authorized in this agreement, you may not rent, sell, lease, sub-license, distribute, transfer, copy, reproduce, display, modify or time share the enclosed product or documentation.

Introduction

Acoustic Toy Museum

No library in the world has such a wide range of acoustic toys - literally hundreds of musical toys, in every conceivable category. The value of this library isn't just in numbers, great effort was made to capture the authentic sound and detail of each instrument. We meticulously multi-sampled everything at 24 bit / 96 kHz with world-class microphones and Class-A equipment. We even recorded full phrases from the music boxes and loops with the baby drums and toy guitars.

Includes Toy Pianos, Musical Boxes, Ancient Automates, Wood and Metal Xylophones, Mini Bells, Baby Drums, Toy Guitars, Ukulele, Melodicas, Small Accordions, Harmonicas, Percussive, Funny Horns, Musical Gadgets, Musical Cubes, Plastic Tubes and much, much more. Download the Content PDF for a full list of all included toys.

Electric Toy Museum

In line with our work on the Acoustic Toy Museum, we set out to create another playful retrospective, this time focusing on battery-powered contraptions. We found some 97 different toys dating back to the 60's, some with truly incredible character.

The sounds of playful blips and cheap plastic come alive through our meticulous process; over 14,000 samples at 24 bit / 96kHz with many instruments multi-sampled with release samples for each note, rhythms converted into sliced loops, GM drum kits, and FX and speech voices all carefully organized for easy navigation.

We sampled everything. Every note, every key press, every click, resulting in a truly comprehensive and highly detailed library of classics, unmatched in the industry.

System Requirements

Compatibility

AU, VST, RTAS, AAX or standalone

UVI Workstation 2.5.2 or higher

Minimum System Requirements

- Intel CPU
- 4 GB of RAM (8 GB+ recommended)
- 21.6 GB of disk space
- Mac OS X 10.7 or higher
- iLok account (free, dongle not required)

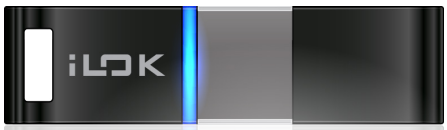
Compatibility

VST, RTAS, AAX or standalone

UVI Workstation 2.5.2 or higher

Minimum System Requirements

- Core Duo or faster
- 4 GB of RAM (8 GB+ recommended)
- 21.6 GB of disk space
- Windows 7 or higher
- iLok account (free, dongle not required)



Authorize the Way You Want

Your license allows 3 concurrent authorizations on any combination of computers and iLok dongles.

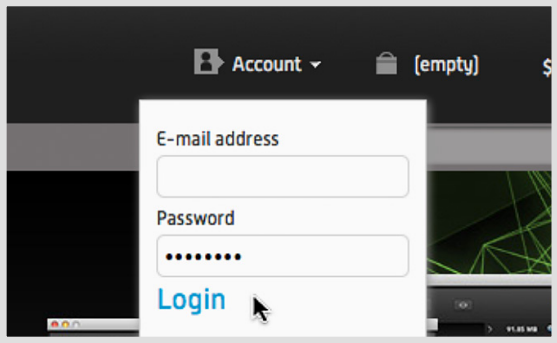
License management is a simple drag-and-drop process done through iLok License Manager.

Visit ilok.com/ to download iLok License Manager and create your free account.

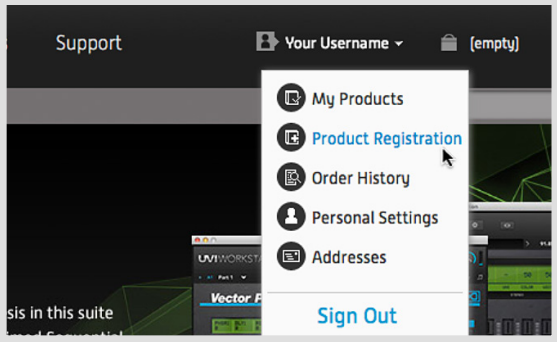
Step 1 Register Your Serial Number

- You must have an account on uvi.net/ and ilok.com/ prior to registration
- If you purchased a **physical version** of this product, your serial number is located on the inside of the box
- If you purchased an **electronic version** of this product, your serial number will be included in a confirmation email
- You can see a list of the products you've registered and their serial numbers anytime at uvi.net/my-products

1. Login to your account on uvi.net/

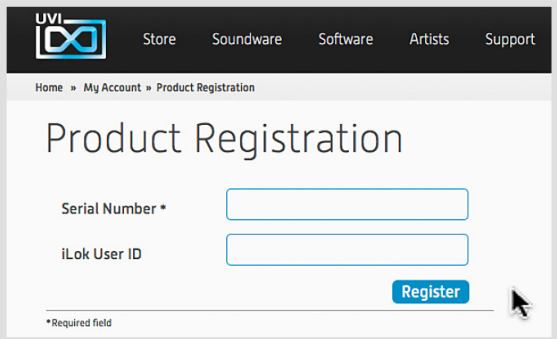


2. Navigate to the 'Product Registration' page



3. Enter your details and click 'Register'

   Upon completion a new license will be deposited in your iLok account



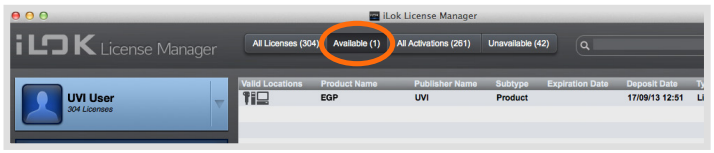
Step 2 Activate Your License

- iLok License Manager is required for activation, download the newest version at ilok.com/ilm.html
- Your license allows up to 3 concurrent activations on any combination of iLok dongles and computers
- Activations can be moved between devices at anytime

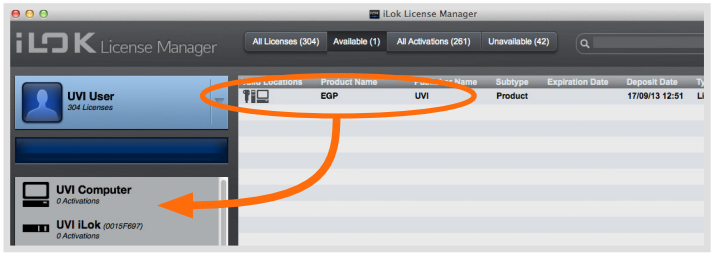
1. Launch iLok License Manager

2. Login to your account

3. Click the 'Available' tab

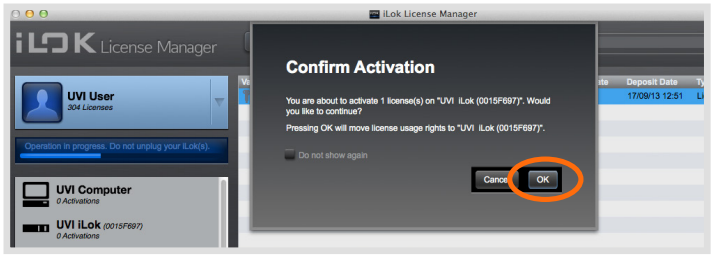


4. Drag the license to your computer or an iLok dongle



5. Click 'Ok' to confirm the activation

   The process is complete, your device is now authorized



iLok License Manager
iLok License Manager
Confirm Activation
You are about to activate 1 license(s) on "UVI iLok (0015F697)". Would you like to continue?
Pressing OK will move license usage rights to "UVI iLok (0015F697)".

UVI iLok (0015F697)
0 Activations

» To see how many authorizations you have left simply select the license and click 'Show Details'

» To deactivate your license, right-click it and select 'Deactivate' — doing so will return your license to the 'Available' tab

Step 3 Install Your Instrument

- UVI Instruments can be stored anywhere on your system
- Storing your instruments on a fast drive will improve performance
- Your instruments can be downloaded at any time from uvi.net/my-products

1. Create a folder on your computer and place your UVI Instruments in it
   Once this is done we need to tell UVI Workstation where to find your instruments.
   We do this by creating a watch folder, follow the steps below to create your own:

2. Open UVI Workstation

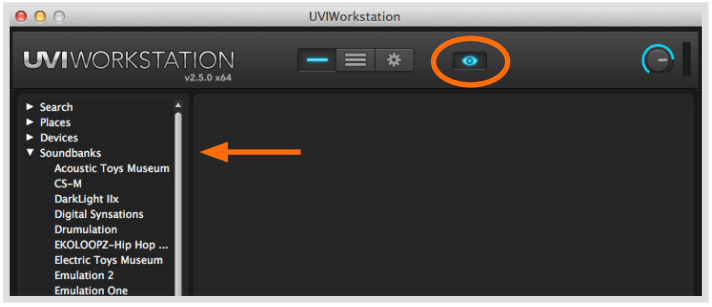
3. Click the Settings page

4. Click the 'Sound Banks' tab

5. Click the '...' button and select the folder where you've placed your instruments

6. Restart UVI Workstation and open the Browser

   Your instruments will be available under the 'Soundbanks' tab

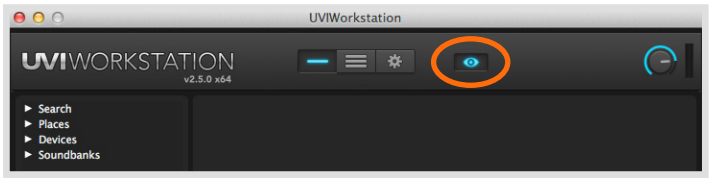


Step 4 Load Your Instrument

- UVI Workstation is required to run UVI Instruments
- The newest version of UVI Workstation can be downloaded free at uvi.net/downloads
- UVI Workstation can be run as a standalone program or as a virtual instrument from within your DAW of choice

1. Open UVI Workstation

2. Click the Browser icon



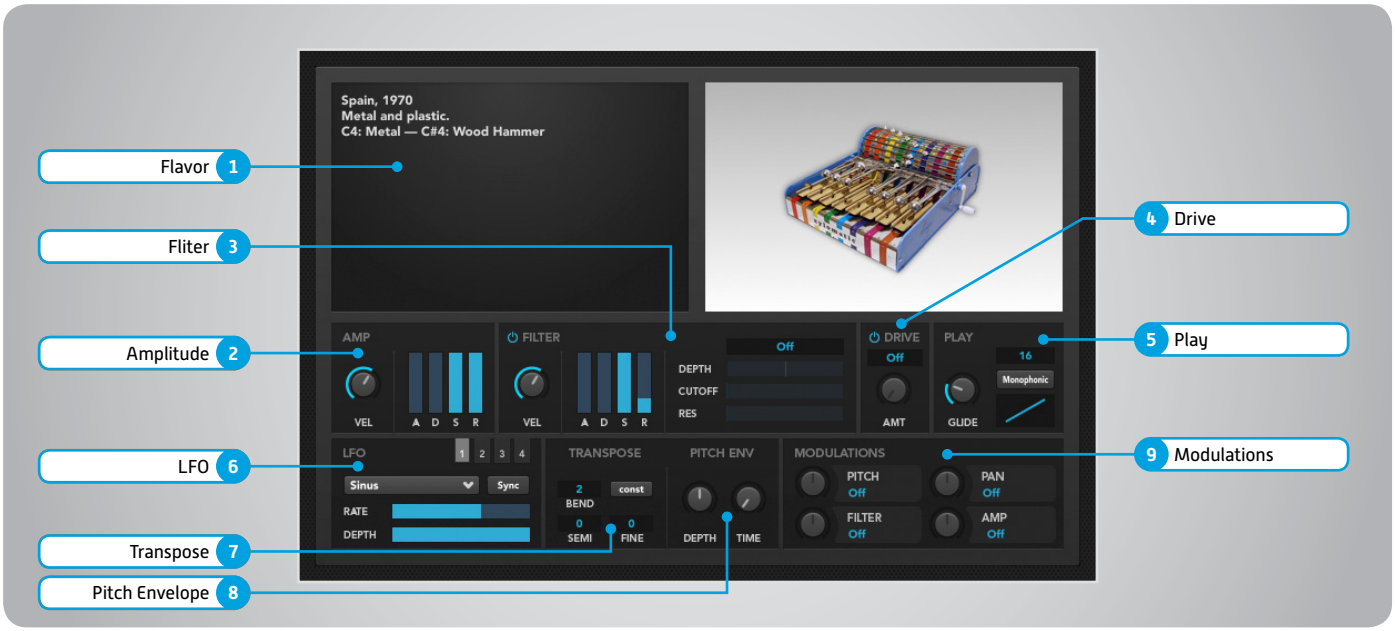
3. Open the Sound Banks tab

4. Select a product, in this example we'll choose Vector Pro, then select an instrument and patch

   Double-click the patch to load it

5. The UI appears and you're ready to jam!

Interface [Acoustic and Electric]



1 Flavor

All the instruments within Complete Toy Museum have a unique character. This panel shows details and images for each unique instrument.

2 Amplitude

» **VEL**
Adjust the filter velocity sensitivity

» **ADSR**
Attack, decay, sustain, release controls

3 Filter

» **Filter Type**
Multimode filter can be set to low-pass (LP), band-pass (BP), or high-pass [HP]

» **ENV**
Depth of the filters EG

» **CUT**
Filter cutoff frequency

» **RES**
Filter resonance amount

» **VEL**
Adjust the filter velocity sensitivity

» **ADSR**
Attack, decay, sustain, release controls

4 Drive

» **On/Off Switch**

» **Amount**
Sets the drive amount

5 Play

» **Polyphony**
Number of keys that can sound at once

» **Monophonic**
Overide polyphony - one key sounds

» **Glide**
Severity between note transition
NOTE: only works within Monophonic

» **Velocity Curve**
Adjust the play velocity sensitivity

6 LFO

» **Type**
Select from square, triangle, etc.

» **Rate**
Set the LFO speed

» **Depth**
Place LFO variance from low to high

7 Transpose

» **Bend**
Pitch levels assigned to the modwheel

» **Semitone**
Medium-level transpose

» **Finetone**
Transpose in cents

» **Drive**
Adjust the overdrive amount of the Bit Crusher effect

8 Pitch Env

» **Depth**
Establish the intensity of the pitch change to occur

» **Time**
Establish the time it takes for the pitch envelope to complete

9 Modulations

» **Pitch, Pan, Filter, Amp**
Apply modulations, including envelopes, velocities, LFOs and more—set the ranges and rates for each modulation

Preset Symbol Descriptions

Complete Toy Museum presets use a number of custom suffixes to describe their attributes.
Please refer to the legend below for definitions:

Suffix	Name	Description
-o	Original	Un-tuned and straightforward version of one preset, getting as close as possible to the actual instrument
L	Loops	There are loops available for this instrument
-l	Loop	Appended to loops
-p	Phrase	Appended to phrases
RS	Release Sample	Preset without (no RS) or with (+RS) release samples
KS	Key Switch	Key switching dimension preset (see the list of keys to switch from one layer to another in the Notes section of UVI Workstation)
KC	Key Click	Preset without (no KC) or with (KC) key click
Menu	Menu	Every sound of the instrument, one sample per key, either diatonically or chromatically mapped
EXTD	Extended	One or two notes irrationally mapped to several octaves
hmr	Hammer	Type of hammer used (Xylo and Metal)
W	Modwheel	Preset with modwheel-activated layer
-Drumkit	Drumkit	GM-Like drumkit for the instrument
no RS	No Release Sample	Copy of the preset with no indication without the release samples

UVI Workstation: Tips + Tricks

MIDI Learn

Most UVI Workstation parameters can be automated via. a convenient MIDI Learn. MIDI Learn allows you to bind a physical MIDI controller to specific parameters within UVI Workstation.

- Any FX tab parameter, Macro Knob or Slider in UVI instruments can use the MIDI Learn feature
- The MIDI controller type and the MIDI Channel assignment will be saved with the multi or with your song in the host sequencer
- Automation is assigned per-part

To use MIDI Learn:
1. Right-click the parameter in UVI Workstation that you want to automate
2. After the MIDI Learn dialog appears, Trigger the desired MIDI input controller (knob, fader etc.)

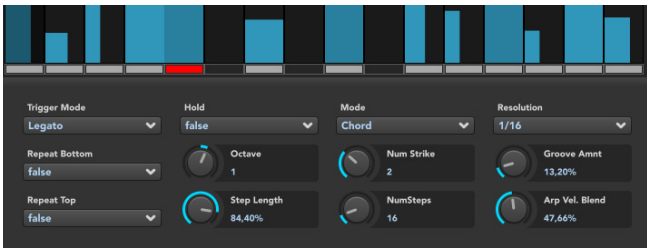
To remove a MIDI controller assignment:
Right-click the desired parameter and press “Delete”

Unlimited FX

UVI Workstation offers a wide variety of FX, or effect processors, to cover all your audio processing needs. The FX implementation is robust and includes the ability to insert unlimited FX slots in several stages of the signal flow.

- Click the “FX” tab to open the FX page on the Single view
- In Multi view the FX section is always displayed

Arpeggiator

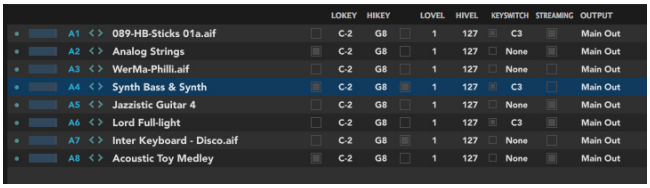


UVI Workstation comes equipped with a robust arpeggiator. To insert an arpeggiator in a part, you need to display the Single view in the UVI Workstation, then click on the note icon. The arpeggiator can be employed as a pattern gate, arpeggiator, or even an advanced rhythmic processor for your live MIDI performance or sequenced MIDI tracks. Arpeggiators can be inserted in an unlimited number of parts.

Preset Stacking

Thanks to the simplicity of the UVI Workstation you can stack as many preset as you want by simply assign multiple part on the same MIDI channel.

Split, Velocity & Key Switch



The Keyswitch settings allow you to load multiple presets into two or more parts and dynamically play and mute them from your MIDI controller using key switching, note range, velocity range or any combination of the three parameters. This powerful feature gives you a great deal of real-time control.

Scroll Wheel

All knobs can be adjusted with the scroll wheel on your mouse. When you double-click on any knob or slider, you can manually enter or type in the desired value.
